Deferred Interest / No Interest if Paid in Full Financing Options

Deferred Interest Financing allows the convenience of monthly payments over time. The interest that accrues from the date of purchase is not assessed to the account as long as the promotional balance is paid in full before the promotional due date.

Reduced Interest / Fixed Payment Financing Options

With this type of financing option, monthly payments are the same each month and are required until the promotional purchase is paid in full.

With the Rheem Manufacturing *KwikComfort* credit card, you have the convenience of being able to finance everything—from your original equipment purchase to subsequent service to Protection Plus[®] extended warranties to comfort options you may decide to add later.
